

Consent form regarding obtaining and sharing health data

In connection with project group 18gr7403's project on 7th semester biomedical engineering and informatics regarding "Development of machine learning model for detection of headache", I hereby consent to the group using my health data as a part of their education regarding the following agreements and specifications

<u>I give my consent to:</u>	YES	NO
- health data being downloaded from my personal Fitbit page to Google Drive	<input type="checkbox"/>	<input type="checkbox"/>
- the anonymized data being kept on GitHub, which is open source	<input type="checkbox"/>	<input type="checkbox"/>
- parts of the data being presented to the project supervisor and the examiner	<input type="checkbox"/>	<input type="checkbox"/>
- analysis and descriptions of the anonymized data being used in connection with the project group's scientific article and work sheets	<input type="checkbox"/>	<input type="checkbox"/>

The prerequisite of the consent form is, that data is contained safely and securely in regard to the demands of the Data Protection Agency. The data will be kept until the end of the exam in January 2019 after which, it will be deleted. It is always possible to retract the consent. This will result in deletion of all data obtained. The project group has appointed Anne Hoelgaard as contact person for this consent form.

_____	Anne Hoelgaard
Participant name	Name of the contact person in the project group
